The next event was a potato match in which the prince competed against Lord Mountbatten and Davis Boyle, one of his private secretaries. It seemed for a time as if the short stature of the prince would enable him to win, but in tossing a potato into a bucket he missed and hit Lady Mountbatten with it. Returning to pick up the potato he suffered a serious handicap and lost. Much winded he took to the side lines and watched Lord Mountbatten win the finals.

And dancing has not been neglected. Yesterday afternoon Wales trotted through a tea dansant, with pretty Leonora Cahill of St. Louis and for four hours last night he was "one of the boys" at a bal masque.

So we get to the massmeeting. Also to John C. Shaffer, the well known oil magnate and newspaper publisher. A canvass of the citizens is contempliated with this object in view: a committee to approach Mr. Shaffer with the request that he appropriate some of his Teapot Dome oil to be sprinkled over the north shore to the consternation of the mosquitoes.

It is felt that Teapot Dome oil did the business for Mr. Shaffer. "Early to Bed' greeted with laughter at La Salle. Hundreds of laughs. Destined to have an uproarious Chicago run. Josephine Drake is a joy and a delight. The company is hand-picked with care."

O. L. Hall in the Journal says-"There is reason to believe the show will have a ready sale. Early to Bed' sets off explosive laughter with the match of ludicrousness—to been as an ludicrousness—to keep an audience in excited merriment. Mildred Florence, a fine young actress, has fire, a good stage manner, wears clothes beautifully, and her success is assured.

Just think if today you had to carry the money you were to use on a trip to the Yellowstone, or California, or Florida, or China, or Europe, in gold and silver coins! That's what people had to do in the old days, not so long past.

But the modern bank has changed all that. Now we have Traveler's Cheques, which allow a person to carry large sums on a few pieces of paper that can be cashed anywhere by the owner on the mere signing of his or her name in the presence of the payer. And we have Letters of Credit, which permit one to draw money at distant banks.

Then while the traveler is away, the modern bank will take care of all the financial matters he leaves behind—it will collect the money due on his securities or other cotes, on the day, the money is due; it will sell his securities, and it will invest and reinvest money for him. Its Trust Department will act as guard children or other dependents. In short, it will take care of his affairs for him as loyally and carefully as he could do it himself.

And the bank will start its service even be-

fore he goes on his trip, for it will guard safely the money he is accumulating to pay for the ticket, the hotel bills, the tips, the postal cards, the new luggage and the new clothes.

If you are planning a trip, come in and ask our Service Station all the ways this bank can be of help to you.

Good Will

An inventory of the assets, tangible and intangible, employed by Henrici's in the daily transaction of business, would disclose that the value of the good will of the general public is overwhelmingly greater than the value of all the other assets totaled and multiplied by a substantial figure of two numerals.

Almost any one in command of a reasonable fund might within a few weeks open an establishment similar to Henrici's in location and in surface appearances, but to win the confidence and good will of a great public in the degree to which Henrici's has been favored is a task to be accomplished only by long years of good faith well kept.

And so it is, that even as many institutions in other departments of business activity watch over and zealously guard tangible property of great value, so Henrici's guards its most prized possession-your good will and that of your family and that of your neighbor.

I Henrici's never has permitted, and never shall permit, the great popular favor which has been bestowed upon it to obscure the plain truth that as public good will is won only by continued merit, so it is retained only by constant vigilance against relaxation in standards. And therein lies one of the secrets of the unfailing satisfaction you find at Henrici's.

The present financial difficulties of Wilson & Co., Chicago packers, may help to illustrate. The great packing companies have been objects of attack by a certain type of politicians for years. They have been branded, condemned, legislated against, and abused as monopolies parhaps more than any other line of business. If there were any small but powerful groups in Washington lining their own pockets at the expense of the people the packers might be expected to be among them. But what is the rituation? SO FAR AHEAD IN THIRD DAY'S POLL

Apparently Has Over Half of Wisconsin Voters.

BY OSCAR HEWITT.

Missaukee, Wis., Aug. 27.—[Special]—Three days of a careful prediction poll will often indicate with accuracy the trend of political sentimen in a community. But Wisconain likes to be different. The first three days at the state fair decreases when trend as definitely as in the state fair decreases.

assuming that Wisconsin will case many ballots next November as iff in 1920, the first day's poll showe hat Senator La Follette is now faved over President Coolidge by margin of 67,000 votes. The seconday showed La Follette a faverite be about 114,000 votes, while today's care shows La Follette with a large winarge over yesterday. The last poll indicates that La Follette is running shead 74,000 votes.

Democrat a Poor Third.
On John W. Davis, the Democratic stry, the voters were discriminately progressive or erratically radical, depending upon the viewpoint. In the first straw ballot of the fair visitors it appeared that \$2,800 residents of Wisomsin favor the Democrat at present. The second day's ballots showed that his popularity had increased more than 25 per cent and that 79,500 people wild vote for him if given a chance that day. But today Davis' atrength was indicated as less than on the first test. Today his following is only an

Of the totals President Coolidge has received 28.26 per cent; Davis, 5.63 per cent; I.a. Follette, 50.31 per cent, and Foster, 1.30 per cent. But easily the seminating feature of the Wisconsin sinte fair canvass is the shifting trend to and from the three major candidates. Each change of only 1 per cent is the probable equivalent of more than 7,000 in a national election.

than 7,000 in a national election.

Half the Voters for La Fellette.

It is evident from the figures for the first half of the fair week that La Fellette's following among the voters is now approximately half of them. In the first poll he received 49.60 per cent of the total votes, 52.61 per cent in the second poll, and then dropped back today to 50.66 per cent. For the three days he received 50.81 per cent.

President Coolidge in the poll has an apparent strength of two votes out of every five, with a tendency below that mark instead of above it. In the first

COUNTY OFFICERS HEAR \$30,000,000 INSURANCE COMPANY SUIT ARGUED

Springfield, Ill., Aug. 27.—[Special.]
—County officers of Illinois in convention today heard a joint discussion on the \$30,000,000 inwested against for eign fire insurance companies doing business in this state.

H. B. Seeley of Chicago, who is back of the effort to collect the \$31,600,000, and Cornelius J. Doyle of Springfield, associate general counsel for the National Board of Fire Underwriters, addressed the convention,

Seely urged activity in bringing local approceeding for collection of the tax

which it is contended is due from the insurance companies. Doyse protested against further proceedings until a supreme court opinion can be lad in the Hanover case now pending.

Doyle said that the insurance companies were now paying a 7½ per cent tax. "It must be understood," he continued. "that these insurance companies were now paying a 7½ per cent tax."

panies are merely collectors and distributors of a rust fund for the purpose of fulfilling policy contracts.

"It will be for others to say whether or not money received from one particular branch of business is of greater appraised value than the schedule of United States monies in the banks."

second he dropped down to 35.53 per cent and today recovered to 35.76. For the half week his percentage is 38.26. Davis started Monday with 8.91 per cent of the total, bopped up to 11.28 per cent yesterday, and today has dropped back to 8.43 per cent. His per cent for the three days is 9.63. More polls are necessary to obtain convincing evidence of political tendency in Wisconsin, but the interest in Badger state politics was exhibited frequently today at The Tribune booth in the fair grounds.

Two Points of View.

One visitor argued at length that the location of the fair is in territory highly favorable to La Follette, and that if the senator cannot muster more than helf of the straw voters under those conditions, he will have extreme difficulty in winning the state. Another patron of the booth asserted that the straw vote does not show the full strength of La Follette and that in the election he will have upwards

These are contentions for political managers and editors to decide. They are cited, together with the frequent requests for the status of balloting at different periods in the day, as indicative of the interest. On a comparative basis, there appears to be five times as much interest in the straw balloting here as at Aurora last week.

here as at Aurora list week.

The method of collecting straws has been improved to prevent thoughtless persons from voting a second time, so that the votes may be as typical of public sentiment as possible.

Last Three Days of Hassel's Shoe Sale

Take a good look at the "Ascot" pictured above at \$6.85. A new, smart fall oxford that has the real full toe English effect. Every detail carefully worked out. Comes in a beautiful imported calfskin, a new light tan or black shade. An unusual value.

If you haven't taken advantage of the opportunity to save money on shoes, offered by our sale, we want you to know that it isn't too late. You have three more days.

The fact that so many Chicago men buy all of their shoes from us indicates that they recognize the high quality of our shoes, and appreciate the wonderful values offered, as well as our guarantee of their complete satisfaction.

If our sale is a good thing for them, it must be a good thing for you.

All sizes, styles, and leather; many new fall styles; at \$4.85, \$5.85, \$6.85, and \$7.85

TANGER BIRACE

The above view is typical of hundreds in this primitive wooded and fascinating Dunes country, on the east shore of glorious Lake Michigan—the Inland Sea—where some three hundred happy families live in artistically designed homes, with every modern convenience, and interesting neighbors on every side.

Long Beach is just fifty-six miles from the loop, an hour and a half's ride by rail, or a short motor run over good paved roads all the way.

Many residents of Long Beach commute daily. Some run out for an afternoon of golf, a dip in the lake or the Roman Pool, or just to spend an evening with the family, and back any morning on fast trains to the office.

Long Beach Co.
1200 Lake Shore Drive
Michigan City, Ind.

If you haven't a copy of our new illustrated book - write and ask for it

Number 1 tee on the right is some fifty feet above the fairway, and there are ten others nearly as high. Every green is a model—fast, true and undulating. Hardly a fairway is flat. They wind, dip and roll through the valleys and over dunes covered with native oaks on every side. It's the sportiest course you have ever played.

The Club Pool on the left is the largest in America. Here hundreds of healthy, happy boys and girls daily dive, swim and revel in supervised play, under the guidance of a competent coach. But why read about it? It's just a short trip to Long Beach. Come! Be our guest for a day, then you will know what I am trying to tell you about.

How the Motor Industry Set the Pace for **Highway Building**

The "horseless carriage" of yesterday is now being produced as the modern automobile at the rate of 4,000,000 a year. The total number of motor vehicles registered in the United States is over 16,000,000.

And automobiles built today are more than ever capable of economically serving both business and recreation needs.

But there is an obstacle standing in the way of its maximum service to owners.

For while the automobile industry made paved highways an economic necessity, the mileage of such roads is today years behind the requirements of modern traffic.

Happily motorists everywhere are boosting for more and wider paved highways.

And extensive experience has taught them that Concrete Highways are one of the best allaround investments they can make an investment that pays big dividends.

As one of our 16,000,000 motorists you know better than anyone else the need for more and wider Concrete Roads. Start now to help your local officials provide them.

An easy way to secure a high grade restricted site for your present or future home now

Sketched from architect's drawing of home now under construction in Flossmoor Park

Already at Flosemoor Park over one-half million dollars in home sites have been purchased, and many homes of rare architectural beauty are now under construction. But many who have been seeking just such a high type development either for a home site or an investment may now have their funds involved in other affairs. To these people we offer an arrange-ment enabling them to secure a large restricted site at Flossmoor Park with-

Flossmoor Park is in the New South Suburban District, that section of high rolling wooded land chosen for its beauty as the location of the well-known country clubs, Flossmoor, Idlewild, Olympia Fields, Ravisloe, Calumet and Dixmoor.

In keeping with surrounding landscape, Flossmoor Park has been laid scape, Flossmoor Park has been laid out by Messrs. Bennett, Parsons & Frost, noted city planners. All sites are unusually large, ranging from fifty to one hundred feet in frontage, and averaging one hundred eighty feet in depth. Permanent restrictions, covenants running with the land, assure maintenance of the type of homes and character of residents. Improvements character of residents. Improvements include street lighting, street paving, sidewalks, sewers, water, gas, electric light, tree planting and landscaping in and paid for.

The prices Thirty-three to Sixty Dol-

lars per front foot which include all the aforesaid improvements - are reasonable. Less, in fact, than the prices of any comparable property about Chicago. This you can readily verify and the scarcity of this type of property assures steady and sub-stantial increases in value.

Transportation is via the fast Illinois Central suburban service, not through squalid sections of the city, but a pleas-ant ride, skirting the lake and through picturesque suburban districts.

Many of those who have bought here have told us that Flossmoor Park fulfills all that they have wanted in a home community, both from the standpoint of natural environment and ready convenience. And that is what we have worked for, to provide the charm of nature, of growing things, lawn, trees and garden, a place where people of character may find a suit-able home environment and yet have every convenience of the city.

Why not look into this, for yourself. Further information is available in a descriptive booklet, a copy of which you may have without obligation. When you send the coupon ask also for the confidential plan of financing which enables you to secure now as site to be paid for in full later; a plan which gives you the benefit of propertyincreases in the interval. Just mail the coupon for complete information.

How Would Government Ownership of Railroads Affect Business?

Business cannot withstand anything that is bad for the farmer.

It cannot withstand county insolvencies, the stoppage of local improvements and the lowering of social standards.

Read the August 30th Country Gentleman editorial to know exactly what would happen in a large number of agricultural states if the government took over the railroads.

Here are specific figures from county treasurers' books in those states most affected. They show a necessary county increase of from 7 to 50% in taxation, if the local railroad taxes are removed.

And these figures do not take into account the added national tax burden incident to the acquirement of the railroads.

Government ownership means government purchase.

Even the most hair-brained politician has never had the nerve to advocate government confiscation of these properties. Incidentally, purchase would add a few billion dollars to our national debt.

Everybody complains about the high cost of government. Political parties capitalize the thought.

They express it in terms of inefficiency, graft, dishonesty.

Oddly enough, those who proclaim most loudly against these iniquities are most strenuous in advocating this increased burden and this enlarged opportunity for these human frailties.

Government ownership of railroads to bring relief to the farmer sounds fine.

But the facts, translated into increased taxation dollars and multiplied by the population of the various states most affected, don't look so good:

Especially since there is no basis of hope that government ownership would effect economies sufficient to insure lower freight rates.

Each succeeding year the farmer is more closely knit into the fabric of business and the general national welfare.

Anything broadly bad for him is broadly bad for business.

The farmer, the business man, the laborer—everybody who pays taxes—is interested. Read—Government Railroads vs. Farm Taxes, August 30th Country Gentleman.

"Then it's something about her ladyship?" broke in Slakeham. Duffield struggled for words and could not find them.

"Let's have it, Duffer! The last I heard was that she had left the Tow-after that damned detective's visit. Where is she now?"

"I don't know, my lord," almost whispered Duffield. "I don't know how living—but I do know that she can't get at the money in the bank."

"I' don't know how that she can't get at the money in the bank."

"I' was a curt grunt that revealed nothing of the agony of appreathal shot through Slakeham. "You've tried Lady Maou!"

Tes, my lord. I went there the day after, and again last Thursday. "You?"

Lord Meant had beard nothing. And the curious thing is, my lord—"

"Yes?"

"Yes?"
Lady Maoul had heard from her ladyship that her young ladyship had the Towers. But she didn't seem to have heard why."
"Odd!" agreed Slakeham. Then, half to himself: "The detective told mother she was not my wife—that she was an impostor—he said he was is to do that when he saw me in Honebyker. Cecily leaves the Towers. mother writes to Lady Maoul and just mentions that my wife has left."
"No, my lord, not quite," corrected Duffield. "Lady Maoul seemed to that there was something—well, something out of the way."
"Yes, I gave her a hint last time that there was something in the wind. It's queer that my mother should not have explained her version of the ir. I'm going to find my wife, do you hear?"
"Tes, my lord. But—in forty-eight hours—and no one knows her ad-

Chicago Singers Honored as They End Danish Tour

COPENHAGEN, Aug. 27.—The members of the Harmonian Singing society of Chicago, who have made a fine impression upon the Danish people by their singing of American songs, will return to the United States Friday. At a farewell dinner at the Royal Yacht club tonight American Minister Prince and Foreign Minister Moltke were among the guests.

There isn't a story; so, there aren't situations: ergo, there is no farce.

There isn't a story; so, there aren't situations: ergo, there is no farce.

The actors are turned loose on a doanything-for-a-laugh basis, and in the hope that they may keep out of one another's way. They don't; and it isn't their fault. None of them is downright bad; and most of the women involved would do well with something to act and a director to/say how.

As it is, Miss Ada Lewis does wonders with nothing to act and nobody to tell her anythins. She is wellnigh continuously in the scene, and does her bit with every speech in her long, barren rôle of a bogus Mrs. Malaprop, Her conduct in the proceedings is at once a personal contribution of follity and an earnest prayer to the populace for clemency.

"ONE HILARIOUS SHOUT AND BEGGAR ON HORSEBACK"

This Dance Frock Hints at the Directoire Influ

by Corinne Lowe NEW YORK .- [Special Corre has taken a dip in sea green in her effort for coolness in the last hot days of the season. And, indeed, no color is so restful and cool. Executed in chiffon and built on the simplest of lines, this frack is charming for semiformal evening occasions. A slight elevation of the waist line in Directoire mood combines with two style points much in vogue—the three tiered skirt and a cape effect at the back. Entire lack of ornamentation accentuates the youthful grace of a frock which ought to delight the heart of any flapper.

That the cape back is not a mode so transient as already to have vanished from our midst was demonstrated by an attractive street frock seen at a recent fall showing. Designed for the young woman, it presented in rust colored twiffs tube silhouette with a detachable flying cape in the back and a narrow belt of self material. Self colored braid, applied in military style, was the only ornamentation.

As for the tiered skirt, nothing

HERNANDO DE SOTO—adventurous spirit of a bygone age—discoverer of the mighty Mississippi! True it may be that his great find was but a "by-product" of the eternal quest for gold, yet like the "hand that rounded St. Peter's dome," he builded better than he knew.

In recent years, no part of the South has seen a more spectacular development than that section of which the city of Memphis is the center. We consider it a great privilege to have a part in the upbuilding of such a great, progressive country.

The Mortgage will provide for a semi-annual Sinking Fund sufficient to retire by maturity 75% of this issue, by call by lot at 105 and interest. Bonds outstanding at maturity will be payable at 105 and interest

The following information is summarized by Mr. Antonio Perez, President of the company, from his letter:

Cespedes Sugar Company, a Cuban corporation, has acquired developed sugar producing properties which formerly were owned by Central Cespedes under the control and operation of Mr. Antonio Perez and associates. These properties, constituting a self-contained low cost producing unit, are located in Camaguey, one of the eastern provinces of Cuba and in the center of the Island's most fertile sugar producing lands.

This issue of bonds will be secured by a closed direct first mortgage lien upon the company's entire fixed property and equipment, appraised by Mesars. Smith & Ames, independent engineers, as of March 15, 1924, at over \$6,370,000, and the company will covenant to place under the mortgage all fixed property hereafter acquired. The company's property to be mortgaged includes more than 34,500 acres of excellent cane land owned in fee, an electrically driven sugar mill of the most modern type with a present capacity of 300,000 bags per annum, 37 miles of standard gauge private railway lines having direct connection with two public railway systems, rolling stock of a value of over \$400,000, telephone lines, warehouses and quarters for workers.

In their letter Mesars. Smith & Ames say, "Fertility of soil, a modern factory, good transportation, an ample reserve of land and efficient management combine to assure a profit at a price for sugar which would involve a loss to the majority of Cuban estates."

In addition to lands owned in fee the company holds about 7,500 acres under favorable leases, and controls about 20,000 acres through the strategic location of its mill and private railroads. The company has followed the policy of obtaining a large part of its cane from independent cane producers, and now has more than 40% of its own cane lands of excellent quality in reserve. These reserves should insure an ample supply of cane for capacity production of its mill for a period of many years.

The company's sugar mill was completed during the 1922-23 grinding season. In each of the two fiscal years ending May 31, 1923, and May 31, 1924, the properties earned net income, available for interest, depreciation and taxes, of approximately \$1,000,000, and the average of earnings in these two years was more than 4½ times the maximum annual interest charge of \$225,000 on these bonds.
